MEMORIES THAT REMAIN

Encounters that leave a lasting impression. We organize tours in and around Zambia with side trips to the neighbouring countries Botswana and Zimbabwe. Meeting school children, artists, small farmers, representatives of NGOs and the young pastor of the Evangelical Free Church. All this in the vastness of Southern Africa. Spectacular experiences in nature such as exploring the Victoria Falls or an overnight stay directly in the Chobe National Park condense this trip into an experience for all senses. Get grounded in the best sense of the word!

SUSTAINABLE TRAVEL

On our tour we have short distances between our stopping points and highlights; the longest journey in a minibus takes just 90 minutes. In between there is always enough time to relax and let your soul thrive. This is sustainable tourism in a very practical and tangible way!

After our time spent together in the group, you might like to add a few more enjoyable days. If this was so, we would be happy to help you put together a suitable programme.
